Company Overview

INDEPENDENT SPECIALIST UNDERWRITING

Company overview

MCI is one of the leading independent specialist underwriters in the London Market. Through MCI's MGA platform and Lloyd's Syndicate 1902, MCI provides underwriting solutions across a range of specialist liability and short-tail classes, combining deep technical expertise with the security and global reach of the Lloyd's market.

MCI's underwriting approach is driven by specialist knowledge rather than volume. By bringing together academic, scientific, engineering and commercial expertise with experienced London Market underwriting talent, MCI can assess and support complex, evolving and difficult-to-place risks with confidence. Its clients range from innovative start-ups and emerging businesses to multinational corporations and public entities operating around the world.

The business has developed a reputation for providing tailored risk transfer solutions across sectors where technical understanding is critical. MCI works closely with brokers, clients and capital providers to deliver practical, responsive and long-term underwriting partnerships, supported by empowered decision-makers and a disciplined underwriting philosophy.

Today, MCI's vision is to be a global leader in science, engineering and research-led risk transfer, delivering sustainable profitability while helping clients navigate increasingly complex risk environments.

At a glance

APPROACH

Why we’re different

01

Direct access

At MCI, brokers have direct access to experienced decision-makers, enabling efficient responses and streamlined placement of complex risks.

02

International capability

With an established presence in international markets, MCI delivers cross-border capability supported by regulatory awareness and cultural understanding.

03

Disciplined agility

MCI operates with a disciplined yet agile underwriting philosophy, allowing the business to respond proactively to emerging risks and evolving market conditions.

04

Bespoke solutions

In addition to offering off-the-shelf products, MCI designs bespoke solutions tailored to each client’s specific risk profile and operational realities.
